

YOUNG PEOPLE'S FEEDBACK

HOW DID WE DO?

2023 / 2024 Quarter 3

99 Evaluations were recorded in Q3. These were made up of in service and end of service evaluations

“

“My youth worker listens and understands what I speak about and helps me push to make goals to better my self every week and I feel I have transformed as a person”
“I believe that I have greatly progressed with resilience since seeing my youth worker”

“Kate has helped with school my attendance has increased and I am more resilient. It's been fun I've got better talking to people I know as I feel myself with Kate”
“I would recommend your work you are helpful and good listener. The action plans helped me do things. You had a good sense of humour. I'm planning on staying on college for two years and finishing it.”
“The sessions were useful and the compasses were a good way of having a look at myself and seeing what needed to change, but it didn't feel too pressured.”

My Youth Worker gave me the right amount of time and support.

My youth worker listened to me and understood my worries.

I have developed resilience and other skills which has helped me make positive changes.
